### 1.1 GENERAL GOVERNMENT - EFFICIENCY

	2013	2012	2011	2010	2009
1.1 a) Operating costs for governance and corporate management as a percentage of total municipal operating costs.	22.8%	23.5%	23.3%	25.4%	18.9%
1.1 b) Total costs for governance and corporate management as a percentage of total municipal costs.	20.4%	20.3%	20.4%	22.0%	

**OBJECTIVE:**

Efficient local government.

**NOTES & KEY FACTORS FOR UNDERSTANDING RESULTS:**

Primary costs are attributed to Council, general administration, human resources, taxation, finance, legal, technology, facilities, communications and audit. The municipality provides centralized support and services such as payroll, accounting and information technology for all departments. Centralized support model may result in a higher measurement than a decentralized model where more costs are allocated to these service areas.

**REFERENCE:**

- The formulas for efficiency measures were revised in 2009 to reflect changes in the reporting of expenses consistent with accrual accounting concepts. New total cost measures were introduced and revised in 2010. Total costs mean operating costs as defined in MPMP, plus amortization and interest on long term debt, less revenue received from other municipalities for tangible capital assets.
- Financial Information Return: 91 0206 35 (Operating costs measure) and 91 0206 45 (Total costs measure).
