Revenues are normally recognized as they become available and measurable. Expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and/or the creation of a legal obligation to pay. The cost, less residual value, of the tangible capital assets, excluding land and landfill sites, are amortized on a straight-line basis over their estimated useful lives as follows:

Asset	Useful Life - Years
Buildings	20 - 40
Furniture and equipment	3 - 15
Vehicles	5 - 15
Roads, bridges and culverts	25 - 75
Street lights/signs	10

Notes to Consolidated Financial Statements (continued)

Year ended December 31, 2013

1. Significant accounting policies (continued):

(f) Use of estimates:

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Significant items subject to such estimates and assumptions include valuation allowances for taxes and accounts receivable and estimating provisions for accrued liabilities and solid waste management facility liabilities.

In addition, the Township's implementation of the Public Sector Accounting Standards PS3150 has required management to make estimates of historical cost and useful lives of tangible capital assets.

Actual results could differ from those estimates. These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in earnings in the year in which they become known.

(g) Solid waste management liabilities:

The liability for closure of operational sites and post-closure care has been recognized based on estimated future expenses estimated inflation and the usage of the site's capacity during the year.

(h) Pensions and employee benefits:

The Township accounts for its participation in the Ontario Municipal Employee Retirement System ("OMERS") a multi-employer public sector pension fund, as a defined contribution plan. Vacation entitlements are accrued for as entitlements are earned.

2. Cash and short-term investments:

The short-term investments consist of term deposits with varying rates of return ranging from 0.80% to 1.00% per annum.

Province of Ontario	41,011	14,491
School Boards	8,917	3,886

Trade and miscellaneous	190,679	46,574
	<u>\$ 207,351</u>	<u>\$ 60,364</u>

5. Solid waste management facility liabilities:

The Environmental Protection Act sets out the regulatory requirements to properly close and maintain all active and inactive landfill sites. Under environmental law, there is a requirement for closure and post-closure care of solid waste landfill sites. This requirement is to be provided for over the estimated remaining life of the landfill site based on usage. Landfill closure and post-closure care requirements have been defined in accordance with industry standards and include final covering and landscaping of the landfill, pumping of ground water and leachates from the site, and ongoing environmental monitoring, site inspection and maintenance. The reported liability is based on estimates and assumptions with respect to events extending over a twenty-five year period using the best information available to management. Future events may result in significant changes to the estimated total expenditures, capacity used or total capacity and the estimated liability, and would be recognized prospectively, as a change in estimate, when applicable.

THE CORPORATION OF THE TOWNSHIP OF NAIRN AND HYMAN

Notes to Consolidated Financial Statements (continued)

Year ended December 31, 2013

5. Solid waste management facility liabilities (continued):

Estimated total expenditures represent the sum of the discounted future cash flows for closure and post-closure care activities discounted at the Province of Ontario's average long-term borrowing rate of 3.95% (2012 - 3.70%) minus an inflation rate of 1.83% (2012 - 2.02%). The estimated total landfill closure and post-closure care expenditures are calculated to be \$146,000. The estimated liability for these expenditures is recognized as the landfill site's capacity is used. At December 31, 2013 an amount of \$99,000 (2012 - \$99,000) with respect to landfill closure and post-closure liabilities has been accrued. The estimated remaining capacity of the landfill site is 33.3% (13,332 cubic meters) of its total estimated capacity and its estimated remaining life is 17 years, after which the period for post-closure care is estimated to be 25 years.

14. Segmented information (continued):

For each segment separately reported in the schedule below, the segment revenue and expenditures represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information. These municipal services are funded primarily by taxation such as property tax revenue. Taxation and payments-in-lieu of taxes are apportioned to these services based on the net surplus. Certain government transfers, transfer from other funds, and other revenue have been apportioned based on a percentage of budgeted expenses.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in Note 1.
