

Espanola and Area Ontario Health Team

We want to partner with you!

Patient and family advisors are needed to join our committee.

What is the opportunity?

The Espanola and Area Ontario Health Team has a mandate to connect and coordinate our local health care system to ensure all residents of Espanola and area receive the best possible care. We believe in patient-centered care and in health equity for all.

We want to work with you so that we can better understand your health care experiences, needs and priorities. You can play an essential role in shaping how we design and deliver health care for all people in our geographic area.

We need your help to do this work.

We are looking for people who represent our area's diverse communities, including people who:

- Regularly use the health care system or are a caregiver of a health system user.
- Are interested in improving care.
- Have some understanding of the health care system.
- May be underserved by the current system.

Are you interested? Here is what we would need from you:

- Interest in working with others to improve the system
- Attendance at meetings (Minimum 4/year)
- Active participation in ways to improve people's experience with the health care system

If interested, please call Suzzanne Thompson at 705-869-1420 ext. 3048
