

## **PUBLIC NOTICE – WATER LINE FLUSHING**

Please be advised that the Ontario Clean Water Agency will be flushing water lines and fire hydrants the week of July 14<sup>th</sup>, 2025, in Nairn Centre.

Flushing may cause temporary discolouration of water. Please run your taps to flush your service line clean if this occurs. You may also experience low water pressure while lines are being flushed. This is normal.

We appreciate your patience during this time. If you have any concerns about the water system, please do not hesitate to contact the municipal office at 705-869-4232.

Thank you.
